

## GRENADA NATIONAL RESORT

**December Summary:** This month saw continued progress across the Grenada National Resort project, with focused advancement on the hotel complex, casino, golf course, and quarry operations, including a multi-agency government inspection by the Investment Migration Agency (IMA), Physical Development Authority (PDA), and Grenada Industrial Development Corporation (GIDC). Hotel Tower 1 progressed through the 14th and 15th floors, with works advancing to the 16th floor, on track for top-out in January. Across the golf course, earthwork balancing and rough shaping progressed on multiple fairways, while quarry operations and the production of concrete bricks and precast drainage pipes remained in continuous operation throughout the month.

**Grenada National Resort:** Spanning more than 400 acres in Levera, northern Grenada, Grenada National Resort by Heng Sheng Group is the country's largest Citizenship by Investment (CBI)-approved development. The masterplan includes a hotel complex with 500 ocean-view suites, as well as modern apartments and private villas available for purchase. The unparalleled amenities will include an 18-hole championship golf course, a full casino complex and world-class dining and leisure experiences. Surrounded by lush rainforest and just steps from Levera Beach, the resort has been thoughtfully designed to respect and showcase the natural splendor of the environment.
